- Compact and slim design
- Rugged durable design - passing drop test of 1 Metre
- Splash proof design
- Fold out feet to provide keyboard tilt
- Status LED's (Caps, Num & Scroll Lock)
- White/Brown box packaging

## Description

Extended product overview

Accuratus 201 - USB Slim Full Size Keyboard with Durable Design The Accuratus 201 is a full size 105 key keyboard but with some of the 'fat' removed. The 201 is extremely durable and passes the drop test with flying colours (Dropping the keyboard from a height with no damage, and no loss of keys), many schools require this. Using 'edge to edge' keys the 201 is ideal where a full size keyboard is required but where space is limited. As with other Accuratus keyboards it uses ultra reliable membrane technology to ensure a long life. The 201 also has a splash proof design so that any minor spillage will spill out of the keyboard and not damage the membrane, ensuring that the keyboard will still work.
