- Splash proof design
- Fold out feet to provide keyboard tilt
- Status LED's (Caps, Num & Scroll Lock)

Description

Extended product overview

Accuratus 201R - USB Slim Full Size Keyboard with Durable Design & Detachable Wrist Rest The Accuratus 201R is a full size 105 key keyboard but with some of the 'fat' removed. The 201R is extremely durable and passes the drop test with flying colours (Dropping the keyboard from a height with no damage, and no loss of keys), many schools require this. Using 'edge to edge' keys the 201R is ideal where a full size keyboard is required but where space is limited. As with other Accuratus keyboards it uses ultra reliable membrane technology to ensure a long life. The 201R also has a splash proof design so that any minor spillage will spill out of the keyboard and not damage the membrane, ensuring that the keyboard will still work. The 201R keyboard also includes a detachable wrist rest for extra comfort when typing.
