## Description

Extended product overview

Accuratus 230 - PS/2 Full Size Professional Keyboard with Touch Typing Keys The Accuratus 230 is a full size 105 keyboard but with some of the 'fat' removed. The 230 benefits from having heavy weights distributed throughout the board, this additional weight gives the 230 a solid feel whilst providing positive key feedback . Using 'edge to edge' keys the 230 is ideal where a full size keyboard is required but where space is limited. As with most Accuratus keyboards it uses ultra reliable membrane technology and laser etched keys which ensures the characters remain fresh throughout the products life. Small, tough & reliable – It's got to be the 230.
