- Membrane key technology
- Responsive tactile feedback keys
- Fold out feet to provide keyboard tilt

## Description

Extended product overview

Accuratus 260 Lower Case - PS/2 Full Size Lower Case Professional Keyboard with Contoured Full Height Touch Typing Keys & Patented One Touch Euro Key The Accuratus 260 Lower Case is an ideal learning board for young people. Children are often unable to differentiate between upper and lower case characters. In fact many schools only teach lower case at the beginning of a child's education. This makes the 260 indispensable for home or for school. In a full size Windows layout with full height shaped keys on a contoured inclined base, the 260 provides hours of comfortable typing. Next to the right hand shift key we have included our patented one touch Euro key to make inputting of the Euro symbol simple and easy with one touch. You will not be disappointed with the Accuratus 260, the original and professional typing keyboard.
