- An excellent counterpart to your high end PC & LCD screen
- Integrated Numeric Keypad accessible using the FN key
- Status LED's (Caps & Num Lock)

Description

Extended product overview

Accuratus 395 V2 - USB Super Slim Mini Keyboard made Using 100% Recycled Plastics and with Protected UV coated legends The Accuratus 395V2 keyboard is a mini layout keyboard but in an extra slim - minimalist casing, ideal for requirements where size is key. Manufactured from 100% recycled plastics, this keyboard helps reduce plastic waste, lower carbon emissions, and conserve natural resources. By repurposing discarded materials, it prevents waste from ending up in landfills and oceans, contributing to a more sustainable, circular economy. The 395V2 has a modern designed square keycap which are slimline and have a soft touch and tactile feel, setting you up for hours of comfortable typing. With a frame around each key the keycaps cannot easily be pulled off, especially useful for schools or in the retail EPOS environment. The 395V2 also offers clear easy read silk + UV coated key legends, meaning the letters will always remain fresh throughout the life of the keyboard. The 395V2 is finished in white and also available in black, giving a clean, fresh and modern feel to any home, office or computer environment.. As with other Accuratus keyboards it uses ultra reliable membrane technology to ensure a long life and provide a good tactile feel when typing. For a matching mouse to complete the package our 3331 is the perfect match. Keyboard Features and Specifications
