## Description

Extended product overview

Accuratus 595 - PS/2 Professional Mini Keyboard with Mid Height Keys The Accuratus 595 has a small footprint for those applications where space is limited, such as in retail, server rack draws or at home. A big winner with major retail stores, this beautifully constructed keyboard offers all the facilities of a standard keyboard, but in a mini layout. The 595 has mid height keys and has fold out feet to allow for hours of comfortable typing. Though smaller than a standard keyboard, the 595 is still very tough using reliable membrane technology.
