- On request the keys can be altered to double or quad size.
- Rear metal backing plate designed with vertical or horizontal mounting holes
- Total mechanical travel: 0.8mm.

Description

Extended product overview

Accuratus BB20 - 20 Key Programmable Rugged KDS Kitchen Bump Bar Keypad - USB + RF Wireless The Accuratus Bump Bars are a new way to control your systems. Designed to suit high pressure kitchen environments, these steam-proof bump bars will make running your operation smooth and efficient. The Accuratus bump bars are designed to seamlessly integrate with your kitchen interface, making sorting through orders easier than ever. Program the bar using our Matrix Maker software to meet your specifications, then use the intuitive design to sort through orders quickly and easily, without having to touch screens and other equipment where grease and dirt can build up. The bump bar can be customised with your own colour, legends, interfaces, and logos to create a bump bar tailored to you and your needs.
