Key Features

Important highlights of this product

- Wireless Bluetooth 5.0 & RF connection (Bluetooth receiver not included, Nano sized RF receiver included) RF receiver is stored in the battery compartment of the keyboard
- Upto 10M of Bluetooth or RF wireless freedom
- Powered via 2 x AAA batteries (not included)
- Multi Device pairing, with 3 Bluetooth devices and 1 RF device (eg. PC, Tablet, Phone)
- 3 Multi Device pairing keys offer fast hot swapping between 3 paired Bluetooth & 1 RF devices
- Black case and keys (other colours made on special request). Accessible using FN + 1/2/3/4
- Sculptured and contoured design, shaped to fit the natural position of your hands and finger tips
- Split key keyboard layout, offering a natural arc typing position for wrists to aid with RSI and Carpel Tunnel Syndrome.
- Integrated wrist pad shaped to follow the ergonomic design of the keyboard and to support wrists comfortably.
- Designed with reverse tilt feet fitted at the front of the keyboard, meaning the keyboard angle can be set to a subtle reverse
- Low profile keys which are tactile and have a high life cycle membrane key mechanism offering excellent durability and feel
- Compact UK key layout with integrated multimedia functions (other language layouts available on request)

Description

Extended product overview

Accuratus Contour Multidevice Wireless - Bluetooth & RF Wireless Sculptured Ergonomic Split Key Multimedia Keyboard with Reverse Tilt Introducing the new Accuratus Contour Multidevice Wireless keyboard, evolving from our hugely successful USB version the Accuratus Contour Multidevice Wireless features Bluetooth and RF 2.4GHz wireless connectivity meaning you can hot swap quickly between paired devices such as a PC, Mac and tablet or phone. Ergonomically designed for increased comfort, this wireless keyboard can support both Bluetooth and RF connectivity for seamless multi-device compatibility. With its sculptured split key design and reverse tilt option, typing becomes more natural and efficient, helping to reduce strain and improve productivity. The Contour Wireless keyboard from Accuratus has been designed to provide a comfortable and dynamic hand pronation position with the ergonomic reverse tilt, achievable using the fold out feet at the front of the keyboard, split keys and sculpted design. The natural relaxed placement of the hands on the keyboard and the wide wrist rest are ideal for those who want to type in comfort with a neutral wrist position. Pair the Contour with optional Accuratus M100 Multidevice Wireless Mouse or Accuratus Upright 2 RF Mouse (MOU-UPRIGHT2-RFBK) for the ultimate ergonomic desktop set.

Keyboard Features and Specifications

- Wireless Bluetooth 5.0 & RF connection (Bluetooth receiver not included, Nano sized RF receiver included) RF receiver is stored in the battery compartment of the keyboard
- Upto 10M of Bluetooth or RF wireless freedom
- Powered via 2 x AAA batteries (not included)
- Multi Device pairing, with 3 Bluetooth devices and 1 RF device (eg. PC, Tablet, Phone)
- 3 Multi Device pairing keys offer fast hot swapping between 3 paired Bluetooth & 1 RF devices
- Black case and keys (other colours made on special request). Accessible using FN + 1/2/3/4
- Sculptured and contoured design, shaped to fit the natural position of your hands and finger tips
