## Key Features

Important highlights of this product

- USB wired 'plug and play' connection
- Black case and keys (other colours made on special request)
- Sculptured and contoured design, shaped to fit the natural position of your hands and finger tips
- Split key keyboard layout, offering a natural arc typing position for wrists to aid with RSI and Carpel Tunnel Syndrome.
- Integrated wrist pad shaped to follow the ergonomic design of the keyboard and to support wrists comfortably.
- Integrated Trackball and left/right mouse buttons, for an all-in-one solution.
- Designed with reverse tilt feet fitted at the front of the keyboard, meaning the keyboard angle can be set to a subtle reverse
- Low profile keys which are tactile and have a high life cycle membrane key mechanism offering excellent durability and feel
- Compact UK key layout with integrated multimedia functions (other language layouts available on request)
- Keycap printing is UV coated, just like on laptop keyboards to offer a very long life and prevent character wear
- Clear easy read key legends
- FN key to multiplex some keys, eg the multimedia functions

## Description

Extended product overview

Accuratus Contour - USB Sculptured Ergonomic Split Key Multimedia Keyboard with Reverse Tilt & Trackball The NEW Contour keyboard from Accuratus has been designed to provide a comfortable and dynamic hand pronation position with the ergonomic reverse tilt, achievable using the fold out feet at the front of the keyboard, split keys and sculpted design. The natural relaxed placement of the hands on the keyboard and the wide wrist rest are ideal for those who want to type in comfort with a neutral wrist position. The Accuratus Contour includes a built in trackball for the ultimate ergonomic desktop setup.
