The programming is stored inside the keyboard, once programmed the keyboard can be plugged into another computer and all programming will still be the same, the programming software does not need to be installed on every computer.
- 3 Track fully programmable MSR - Complies with ISO7812, IBM standards and American driving license
- True keyboard wedge function
- Internal metal plate for increased protection against ESD
- Compact and slim design
- White/Brown box environmentally friendly packaging
- Dimensions: 146 x 136 x 35 mm (l x w x h)

## Description

Extended product overview

Accuratus K18A - EPOS Keypad with 3 Track MSR & 6 Fully Programmable Cherry MX Keys The K18A is a compact and space saving fully programmable numeric keypad with integrated 3 track MSR. The K18A is specifically designed for POS, retail and other environments that require a fully functional keypad and MSR all in the one unit. With Cherry MX Mechanical key switches and a high quality MSR reader it is built to last and perform. Within the keypad are 6 extra fully programmable keys that can be easily programmed to any key function required. The Accuratus K18A can also be fully customized with custom key layouts on request, dependent on MOQ.
