- IP54 rated – Resistant to dust and splashes when the trackball is in use
- USB interface for easy plug-and-play operation
- Other connection options available upon request

## Description

Extended product overview

Accuratus KM107 - USB Stainless Steel Rugged Full Size Keyboard with Trackball - Hole Mount The Accuratus KM107 is a high-quality, stainless steel rugged full-size keyboard designed for durability and reliability in demanding environments. Featuring a hole-mount design for secure and stable installation, this robust keyboard includes a built-in trackball for precise cursor control. With an IP65 rating, the KM107 is fully waterproof and dustproof when the trackball is not in use, ensuring protection against liquids and fine particles. When the trackball is in operation, it maintains an IP54 rating, offering resistance to dust and splashes. Its vandal-proof stainless steel construction makes it ideal for high-traffic and public-use areas where durability is essential. This rugged keyboard is perfect for industrial and manufacturing environments, cleanrooms, and medical applications, where hygiene and resilience are critical. Additionally, it is well-suited for self-service kiosks, marine use, boats, outdoor installations, public terminals, food processing facilities, and military applications, delivering reliable performance in even the harshest conditions. Note: We normally manufacture this keyboard on request, please contact us with your requirements.
