- Resistant to Water, dust, dirt, chemicals, and physical damage

Description

Extended product overview

Accuratus KM65 - USB Stainless Steel Rugged Mini Keyboard with Touchpad - Hole Mount The Accuratus KM65 is a high-quality, stainless steel rugged mini keyboard designed for durability and reliability in demanding environments. Featuring a hole-mount design for secure and stable installation, this compact keyboard includes a 66 x 50mm touchpad, providing precise and responsive cursor control. Built to withstand tough conditions, the KM65 is IP65 rated, making it fully waterproof and dustproof, ensuring protection against liquids, dirt, and debris. Its vandal-proof stainless steel construction guarantees long-lasting performance, even in high-traffic or public-use settings. This rugged keyboard is ideal for industrial and manufacturing environments, cleanrooms, and medical applications, where hygiene and durability are critical. It is also perfectly suited for self-service kiosks, marine use, boats, outdoor installations, public terminals, food processing facilities, and military applications, offering reliable operation in even the harshest conditions. Note. We normally manufacture this keyboard on request, please contact us with your requirements.
