- USB interface for easy plug-and-play operation
- Other connection options available upon request
- Rugged, vandal-proof design for harsh environments
- Resistant to Water, dust, dirt, chemicals, and physical damage

Description

Extended product overview

Accuratus KM65C - USB Stainless Steel Rugged Mini Keyboard with Trackball - Hole Mount The Accuratus KM65C is a high-quality, stainless steel rugged mini keyboard designed for tough environments where durability and reliability are crucial. Featuring a hole-mount design for secure and stable installation, this compact keyboard includes a built-in 25mm trackball for precise cursor control. Built to withstand harsh conditions, the KM65C is IP65 rated, making it fully waterproof and dustproof when the trackball is not in use. When the trackball is in operation, it maintains an IP54 rating, providing resistance to dust and splashes. Its vandal-proof stainless steel construction ensures long-lasting performance, even in high-traffic or public-use areas. This rugged keyboard is perfect for industrial environments, manufacturing facilities, and cleanrooms, as well as medical applications, self-service kiosks, marine use, and outdoor installations. Additionally, its robust design makes it suitable for public terminals, food processing areas, transportation hubs, and military applications, offering reliable functionality in even the most challenging conditions... Note. We normally manufacture this keyboard on request, please contact us with your requirements.

Keyboard Features and Specifications

Keyboard Features:

- High-quality stainless steel 304 construction for durability and vandal resistance
- Mounting: • Hole mount with studs for secure installation
- Keyboard Type: • Compact mini keyboard with integrated trackball for easy navigation
- Trackball: • Diameter: 25mm for precise cursor control • Smooth and accurate tracking for industrial and professional applications
