- IP54 rated – Resistant to dust and splashes when the trackball is in use
- USB interface for easy plug-and-play operation
- Other connection options available upon request

## Description

Extended product overview

**Accuratus KM90B - USB Stainless Steel Rugged Mini Size Keyboard with Function Keys & Trackball - Hole Mount**

The Accuratus KM90B is a high-quality, stainless steel rugged mini keyboard designed for durability and reliability in demanding environments. With a hole-mount design for secure and stable installation, this compact keyboard features a full row of function keys (F1 to F12) along the top, providing enhanced control and versatility. It also includes a built-in trackball for precise cursor navigation. Engineered to withstand tough conditions, the KM90B is IP65 rated, making it fully waterproof and dustproof when the trackball is not in use, while maintaining an IP54 rating during trackball operation, offering resistance to dust and splashes. Its vandal-proof stainless steel construction ensures long-lasting durability, even in high-traffic or public-use environments. This rugged keyboard is ideal for industrial and manufacturing facilities, medical applications, and cleanrooms, where hygiene and resilience are essential. It is also perfectly suited for self-service kiosks, marine use, boats, outdoor installations, public terminals, food processing facilities, and military applications, delivering reliable performance in even the harshest conditions. Note. We normally manufacture this keyboard on request, please contact us with your requirements.

**Keyboard Features and Specifications**

**Keyboard Features:**

- High-quality stainless steel 304 construction for durability and vandal resistance
- Mounting: • Hole mount with studs for secure installation
- Keyboard Type: • Mini size keyboard with integrated trackball for easy navigation
- Trackball: • Size: 38mm for precise cursor control • Smooth and accurate tracking for industrial and professional applications
