Description

Extended product overview

Accuratus Monster 2 - USB Mixed Colour Lower Case Childrens SEN Keyboard for Learning with Extra Large Keys & 2 Port USB Hub For young children the Monster 2 Mix is the perfect entry into computing, with large over-sized keys grouped in different colours making learning easy and fun. Then there's the High Visibility & High Contrast models designed for users with vision impairment. With high visibility large black legends against a bright yellow background, or large black legends on a high contrast white background. The perfect combinations for those with certain sight deficiencies. Maybe you just want a keyboard with big keys because they look cool, whatever the reason, these tough keyboards are precise and a joy to use. Designed to assist SEN users by using precise colour contrast ratios backed by RNIB research, the Monster keyboard is a brain-friendly alternative to regular, non-assistive keyboards. Our Monster 2 mixed colour keyboard has special dual font printing to ensure the correct contrast ratio for characters (black on yellow keys and white on other colour keys). If you feel this suits your needs you can also talk to your IASS advisor. If you qualify for disabled person VAT relief on purchases please contact us.
