## Description

Extended product overview

Accuratus Rainbow 2 High Vis - USB High Visibility Visual Impairment SEN Keyboard with Extra Large Black Font & Yellow Keys For users with vision impairment the Accuratus Rainbow 2 High Visibility is the perfect aid when using a computer. The keyboard has familiar standard sized keys and high visibility large black legends against a bright yellow background, offering maximum visibility. To match the keyboard choice our full size Accuratus Image mouse is available in either a high visibility yellow , or high contrast white , giving the perfect partnership. Designed to assist SEN users by using precise colour contrast ratios backed by RNIB research, the Rainbow keyboard is a brain-friendly alternative to regular, non-assistive keyboards. If you feel this suits your needs you can also talk to your IASS advisor. If you qualify for disabled person VAT relief on purchases please contact us. Keyboard Features and Specifications • USB 'plug and play' connection • Black case with modern look and feel • Familiar standard sized keys designed to be easy to recognise and use • Same outer size as a conventional keyboard • High visibility keys; bright yellow with large black font in a black housing.
