## Description

Extended product overview

Accuratus S02 - Portable Wearable Video Recorder / Body Camera The Accuratus Wearable Recorder is an ideal tool for recording video or audio while on the go. Clip it on to your outfit, wear it as a lanyard, or simply hold it and use it as a portable audio recorder - the choice is yours. The Accuratus wearable recorder can be applied to many different situations where discreet recording is necessary, such as interviews and business meetings. Features and Specifications • Resolution: 1920 x 1080. • Framerate: 30fps. • Video format: AVI • Image format: JPEG. • Image ratio: 16:9. • Battery capacity: 1200mAh. • Battery life: 6-7 hours of recording. • Infra-red for filming in dark locations. • One click audio & video recording. • Charging type: USB-C. • Noise reduction recording. • Loop recording can automatically overwrite the oldest data when the memory card is full, ensuring your footage never gets cut short. • Red & Blue LED lights can be manually activated. • Can be fixed to brackets for convenient “interview style” recording. Physical Specifications • Dimensions (L x W x H): 100 x 25 x 14 mm Approvals & Compatibilities
