- True keyboard wedge function
- Caps, Scroll and Num lock functions are independent of other keyboards connected
- Internal metal plate for increased protection against ESD
- Compact and slim design

Description

Extended product overview

Accuratus S100D - USB Compact Layout EPOS Keyboard with 17 Fully Programmable POS Grade Keys The Accuratus S100D is a compact EPOS style keyboard with 17 relegendable keys that are also fully programmable with multiple layers. This means that you can multiplex these keys with many commands, maybe hold to (FN) function key and F1 to run a specific set of keystrokes. The S100D keyboard can be programmed with our Matrix program which is of course a free product available to download. As with all Accuratus keyboards it uses ultra reliable membrane technology and has high quality keys / key legends to ensure that characters remain fresh throughout the products life.
