Programming software available for Windows, Android coming soon.
- True keyboard wedge function
- Caps, Scroll and Num lock functions are independent of other keyboards connected
- Internal metal plate for increased protection against ESD

Description

Extended product overview

Accuratus S24B - Slim-line Professional & Durable Fully Customisable USB Keypad with 24 Programmable Keys

The S24B keypad is a slim-line fully programmable 24 key durable keypad designed for heavy use and multiple users. The keypad can be updated with additional single or double blanking keys to speed up any data input and ease of use. The key tops have a removable cover so you can put any colour/ text or direction on any key making this the easiest programmable keypad to use. The Accuratus S24B keypad alongside Windows 11 is an excellent partner, it can be programmed to make full use of the new Windows 11 shortcuts. The shortcut can be actioned with just a click of a button without the need to remember or hold down complicated sets of keys. Of course the S24B could also be programmed to make use of your favourite shortcuts too, such as Ctrl+C for copy or the handy but hidden snipping tool Windows+Shift+S, again by just the press of one key. The Accuratus range of programmable keypads are supplied with a free Windows down-loadable application so they can be programmed to suit any bespoke application. The programming is stored within the keypad, once programmed the keyboard can be plugged into another computer and all programming will still be the same, the programming software does not need to be installed on every computer. This offers excellent flexibility so that the keypad can also be used on Mac and Linux computers once it has been programmed on a Windows computer. Our team are on-hand to assist with any programming requirements if you or your customer needs any help, we can even customise this keypad for any bespoke requirements if needed. New Windows 11 shortcut keys Quick Settings Windows + A keyboard shortcut opens the Quick Settings flyout It controls the Volume, Wi-Fi, Bluetooth, Brightness sliders, Focus Assist, and other settings. Notification Centre Windows + N keyboard shortcut brings up the Notification Centre Part of the new action centre experience, including all your notifications and a calendar view Widgets Panel Windows + W keyboard shortcut opens the Widgets panel Supplying you with information on weather, local traffic, news, stocks, todo etc Snap Layout Windows + Z keyboard shortcut displays the Snap Layouts flyout flyout Helping organise apps and windows for multitasking Chat Windows + C keyboard shortcut opens the Teams Chat app from the Taskbar Helping you quickly select a chat thread directly from the Taskbar Other handy Windows shortcut keys , these could all be easily programmed into the Accuratus S24B keypad so they can be used with a single press of the key. Windows+Shift+S - Windows Snipping Tool - Screen grab a section of your screen Ctrl+Z - Undo - Undo the last action Alt+F4 - Close App - Windows+D - Show or Hide Desktop Windows+Tab - Task view - Easily switch between all open Apps and Windows Windows+I - Settings - Windows Settings / Control Panel Ctrl+C - Copy Ctrl+V - Paste Ctrl+P - Print Keypad Features and Specifications • Professional and durable slim-line keypad • Slim-line and compact design, perfect for tablet use • USB connection - Plug and Play (once programmed no drivers or software are required) • Black case and keycaps • 24 Relegendable fully programmable keys, 4 (columns) x 6(rows) key matrix • Key layout can be changed using single and double keys (can be purchased separately).
