### Description

Extended product overview

Elevate your home cinema experience with Acer's H6805BDa DLP 4K projector. Immerse yourself in crystal-clear UHD resolution and enhance your viewing of sports and movies. With an impressive 4000 ANSI lumens of brightness, this projector offers unparalleled detail. Indulge in the ultimate projection experience with the H6805BDa, featuring wireless functionality and Bluetooth Wireless Audio for seamless entertainment. The projector also includes Acer Football Mode for vibrant colours during sports events, and its impressive 240 Hz refresh rate and low 5 ms input lag make it perfect for intense gaming sessions. Experience the following highlights: Lighting technology: 245 Watt Philips UHP Resolution: 4K UHD (3.840 x 2,160 px) Brightness: 4,000 (standard), 3,200 (eco) ANSI lumens Contrast: 10,000:1 Lifetime max (hrs.): 5,000 (standard), 10,000 (eco), 12.000 (ExtremeEco) hours Hidden Dongle Design Acer Hidden Port Design: The Acer Hidden Port enables the integration of a compatible wireless adapter without external restrictions. Thus, the adapter is seamlessly integrated into the case and maintains a chic design without corners and edges. Auto Shutdown The Auto Shutdown function automatically shuts down the Acer projector if no input signal is received after a preset time. This function can be set individually via the menu and helps to save power and lamp hours. Wall Color Compensation Wall Color Compensation: The best picture quality is achieved with wall colour correction on coloured projection surfaces such as panels and wallpaper. 5 optimised wall colours can be easily compensated for without any further settings via the menu for best picture quality. SmartTV The intelligent SmartTV projector offers you the complete audiovisual experience. Whether streaming (Netflix, Prime ...), music (Spotify, Soundcloud ...) or social media (Instagram, TicToc ...) - there is the right app for everyone. Acer Football Mode With the Acer Football Mode, you bring the stadium to your home. The mode automatically adjusts picture brightness, saturation and sharpness as well as gamma values to make skin tones more realistic and green tones more vivid. Optimal for football fans and sports enthusiasts. Do you value detail? Thanks to low input lags, lags are a thing of the past. Whether you're gaming on a large screen or watching the latest action movie - you'll always be on the same level and get every detail without jerking. 24/7 use This projector promises maximum reliability and delivers a brilliant picture even in 24/7 continuous use. Especially for signage applications or also for exhibitions in museums or similar, this projector can be used without any worries. Bluetooth audio Can a projector only be a projector? No! Thanks to Bluetooth Audio, you can connect your notebook, tablet or smartphone to the projector via Bluetooth and use it as a music box. Who needs a jukebox when you can have a projector? Automatic Keystone Correction With the automatic vertical keystone correction, the Acer projector automatically compensates for the trapezoidal distortion when it is not set up exactly vertically and projects a right-angled image. Rec. 2020 Rec. 2020, also known as BT. 2020, is the recommendation for UHDTV defined by the International Telecommunication Union (ITU). Rec. 2020 compatibility enables the projector
