Description

Extended product overview

The Acer XL2530 projector redefines modern projection with its advanced features and eco-conscious design. Crafted with post-consumer-recycled plastic, it exemplifies Acer's commitment to sustainability while delivering cutting-edge performance. Whether you're watching films in true cinematic 24p, showcasing dynamic content with 360° projection, or enjoying uninterrupted operation for signage or exhibitions, this projector adapts to your every need. Packed with user-friendly features like Auto Portrait Mode, customizable startup screens, and Acer Football Mode for sports enthusiasts, the XL2530 combines style, functionality, and reliability. It's the ultimate solution for home, business, and professional environments.

Post-Consumer-Recycled Plastic Recycled plastic (PCR) is used in the manufacture of this projector to support Acer's efforts to reduce global waste. **Original 24p Experience** true cinema at 24 frames per second. The Acer XL2530 projector reproduces films in the original cinema format as they were shot on the film set. See 24p movies through the eyes of the director. **360° Projection** The 360° projection offers you highest flexibility and allows you to use the projector in different orientations, such as from the ceiling onto the floor or a table, or mount the projector to project upright. **Auto Portrait Mode** With the Auto Portrait mode you will experience the optimal adjustment of the projection to your smartphone. The Auto Portrait mode ensures that content is displayed in 16:9 format without annoying borders. Even when you rotate the smartphone, the picture is automatically adjusted so that you always have an optimal picture. **24/7 Operation** This projector promises maximum reliability and delivers a brilliant image even in 24/7 continuous use.* Suitable for signage applications, but also for exhibitions in museums or similar, this projector can be used without any worries. * Acer recommends that the projector is switched to standby mode for 30 minutes every 7 days. **Customisable startup screen** The Customisable Startup Screen allows you to create an individual startup screen. This startup screen, no matter if it is the business user's company logo or a home user's favorite photo, is automatically displayed when the projector is started. **Acer Football Mode** Bring the stadium to your home with Acer Football Mode. The mode automatically adjusts image brightness, saturation, sharpness and gamma to make skin tones and greens more vivid. Ideal for football fans and sports enthusiasts. **Auto Shutdown** The Auto Shutdown function automatically shuts down the Acer projector, if no input signal is received after a preset time. This function can be set individually via the menu and helps to save power and lamp hours. **Instant Pack** InstantPack guarantees the lamp safety of Acer ColorBoost projectors. The current lamps from renowned manufacturers such as Osram and Philips are not damaged in the event of a sudden loss of power. (Acer recommends that the projector be powered until the fan stops) **HDMI 3D** HDMI 3D: The integrated HDMI 1.4a standard allows 3D content to be transferred from suitable playback devices such as 3D Blu-ray players, 3D set-top boxes and 3D game consoles without the need for an additional PC. For example, Acer 3D shutter glasses Blu-ray 3D movies and 3D TV shows can be viewed in your living room up to 7.62 meters (300") diagonal. **HDMI Power On** With the HDMI Power On function, the projector is able to turn on automatically when the projector receives a signal via HDMI or VGA. You no longer need to start the projector separately, but can simply switch on your notebook, receiver or game console and the projector will automatically switch on as well.

Acer XL2530 Projector Specifications

Name	Acer XL2530 Projector
Resolution	1920 x 1080 Full HD
ANSI Lumen	4,800 ANSI Lumen
Article number	1000029342
GTIN/EAN	4711121610509
Manufacturer	SKU MR.JWS11.001
Lamp life (ECO)	30,000 Hour
Lens included	Yes
Model name	XL2530
Brand	Acer
Product Type	Projector
Product Series	Acer Vero-Series
Application	Business projector
Projector Type	DLP Projector
Projector lamp type	Laser Lamp
Lamp code	Laser Diode
ANSI Lumen	4,800 ANSI Lumen
ANSI Lumen (Eco)	3,600 ANSI Lumen
Resolution	1920 x 1080 Full HD
Aspect Ratio	16:9
Contrast Ratio	50,000:1
Operating noise - ECO	26 dB
Lamp life	20,000 Hour
Minimum Projection Distance	100 cm
Maximum Projection Distance	980 cm
Minimum Projection Ratio	1.48
Maximum Projection Ratio	1.62
Minimum Focal Length	21.86
Maximum Focal Length	24
Lens Zoom	1.1
Vertical Keystone	40%
Inputs	1x RS232, 2x HDMI Outputs, 1x 3.5mm Jack, 1x USB-A
Wireless technology	Not Specified
Product width	28.6 cm
Product height
