## Key Features

Important highlights of this product

- The breathable mesh back office chair provides comfort and support while allowing air to circulate, reducing heat and moisture buildup. This promotes better posture, reduces fatigue, and improves overall productivity.
- Height adjustable arms for office chairs provide customizable support for your arms and shoulders, reducing strain and discomfort. They also promote good posture and can help prevent long-term injuries.
- An office chair with torsion control provides better support and comfort for the user, reducing the risk of back pain and discomfort. It also allows for smoother and more controlled movements, increasing productivity and reducing the risk of injury.
- Seat slide allows for adjustable seat depth, providing better support for different leg lengths and reducing pressure on the thighs. This can improve posture, reduce discomfort and prevent musculoskeletal disorders.
- The Synchro chair mechanism allows for synchronised movement between the seat and backrest, promoting better posture and reducing pressure on the lower back. It also provides customizable adjustments for individual comfort and support.

**Description**Extended product overview

---

Introducing our Alto Ergonomic Office Chair, designed with your comfort and support in mind. Featuring a breathable mesh high back, this chair provides optimal airflow to keep you cool throughout the day. The adjustable arms allow you to customize your armrest height for maximum comfort. The torsion control and seat slide ensure proper posture and reduced back strain. The synchro chair mechanism allows for smooth movement and recline, providing a comfortable and ergonomic seating experience. Upgrade your office seating with the Alto Ergonomic Office Chair and feel the difference it makes in your workday.
