Extended product overview

AH700ST 4000-Lumen Short Throw 1080P Laser Golf Simulator Projector The Golf Simulator Projector That Almost Installs Itself Automatically adjusts to your impact screen in seconds Golf mode delivers realistic grass and sand Set it and forget it with dustproof technology and a laser light source Golf Simulation Without the Hassle One button setup will automatically adapt to nearly any screen. Start playing golf faster and easier than ever before. Almost Any Size and Any Shape from Any Angle AH700ST's auto-sensing technology corrects and calibrates the screen with the press of a button, simplifying setup for mounting flexibility. Auto Screen Fit Automatically detects and adjusts to your impact screen's aspect ratio, maintaining optimal resolution. *Note: Auto Screen Fit supports 16:9, 16:10, 4:3, and 1:1 aspect ratios. For non-standard aspect ratios, please view the video and adjust via graphic card settings. Enclosure or screen black border requires at least 6 cm of width. Quick Focus Press the Focus button on the remote control as well as make slight adjustments to deliver sharp images. Ready for Wireless Projection With an optional dongle, AH700ST's Wi-Fi capability facilitates wireless projection from any devices, eliminating the need for cables. Safe Short-Throw Solution The AH700ST delivers a safe and shadow-free location for your swing. Up to 200-Inch Display AH700ST features a professional-grade motorised lens with 1.2x optical zoom flexibility. Easily adjust screen size without reinstalling, ensuring no loss in picture quality. Bring the Course Home AH700ST's laser technology, paired with BenQ's expert colour calibration, delivers top-quality visuals, faithfully reproducing golf course colours. Perfect for Any Lighting AH700ST's laser light source delivers 4000 lumens of brightness, 95% Rec. 709 colour accuracy, and high contrast, ensuring stunning visuals in any lighting condition. True-to-Life Golf Course Colours Experience authentic colours from the start with BenQ's exclusive Golf Mode, tailored for different golf course environments that ensure an immersive experience from the most famous courses in the world. Reliable Performance for Any Condition AH700ST's IP5X dustproof sealed engine operates reliably in temperatures from 32-104°F, eliminating the need for regular filter replacements. Durable Laser Technology The AH700ST Laser projector guarantees up to 20,000 hours of light source life, reducing costs associated with lamp replacements and maintenance. Green Technology, Efficient Performance AH700ST reduces energy consumption by 15% compared to traditional lamp projectors and features a chassis made from post-consumer recycled materials. Plus, it's TUV and UL-certified.
