Description

Extended product overview

The BenQ GV50 is a portable 1080p laser projector designed to enhance your home entertainment experience, particularly for bedside ceiling projection. Flexible Projection Angles The GV50 features a flexible base design, similar to an integrated tripod, allowing for 135° vertical adjustment. This design enables seamless transitions from wall projection to ceiling display, providing the freedom to project from any desired angle while relaxing in bed. Vibrant Visuals With a laser light source delivering 500 ANSI lumens of brightness and BenQ's exclusive CinematicColor technology, the GV50 ensures vibrant, lifelike visuals optimized for HDR10 and HLG content. Immersive Audio The projector is equipped with a built-in 2.1 channel 18W speaker system, featuring dedicated bass, providing a cinematic audio experience that complements its visual performance. Smart Entertainment Integration Integrated with Google TV, the GV50 offers personalized recommendations and seamless access to streaming services like Netflix, Prime Video, YouTube, and Disney+. Voice control is facilitated through Google Assistant, enhancing user convenience. Versatile Connectivity The GV50's USB-C port supports multiple functions, including power delivery input and output, DisplayPort output (DP Alt Mode), and media reading from USB-C flash drives. This versatility ensures compatibility with a wide range of devices and power sources. User-Friendly Features The projector includes auto focus, auto 2D keystone correction, obstacle avoidance, screen fit, image rotation, and eye protection, ensuring an optimal viewing experience with minimal setup effort. Projection Versatility Capable of projecting screen sizes ranging from 60 to 120 inches, the GV50 accommodates various room sizes, delivering a seamless big-screen experience from just eight feet away. The BenQ GV50 combines flexible projection capabilities, vibrant visuals, immersive audio, and smart features, making it an excellent choice for enhancing your home entertainment setup, especially for comfortable bedside viewing.
