Extended product overview

The BenQ LH600ST short throw LED projector is an excellent choice for a variety of indoor projection and recreational sports in constrained spaces. With a 0.69 short throw ratio and easy-to-maintain LED light source, the LH600ST provides a flexible short throw range and long-lasting vivid colours for clear and bright images even in small rooms. Reproduce True-to-Life Images for Totally Immersive Experiences 0.69-0.83 short throw ratio for large images from short distances Flexible installation with Screen Fill, 2D Keystone, and Corner Fit Golf Mode for realistically rendered grassy areas, sand traps, and sky Wi-Fi ready with an optional dongle for wireless projection from mobile devices Lamp-free LED light source with 15% less power draw compared to traditional lamps and 20,000-hour lifetime Flexible Installation for Truly Immersive Experiences 0.69 Short Throw Ratio & 1.2x Zoom Best for indoor interactive entertainment and recreational sports, the LH600ST projects images larger than 180" within just 2.7 meters. Its short-distance projection prevents people or objects from getting in the way and casting a shadow on the projected image, ensuring the most immersive viewing experience possible. 2D Keystone & Corner Fit The LH600ST's digital trapezoid correction function allows users to correct images easily. Use the remote control to correct the display with just a few button clicks and use Corner Fit for final image fine-tuning. Easy Aspect Ratio Switching The BenQ LH600ST short throw LED projector features Screen Fill, which allows the projector to easily switch its native resolution to match your desired aspect ratio while maintaining image resolution, also with just a few clicks in the OSD menu. Wi-Fi Ready for Wireless Projection Wi-Fi Ready with an optional dongle, the LH600ST makes it easy for users to wirelessly connect computers or mobile devices and project content onto the big screen with no cables or wires. Small and Sleek Design The LH600ST features a small size and sleek matte black finish that integrates seamlessly into SI equipment without causing distracting reflections during projection. Multiple Entertainment Options With dual HDMI 2.0b ports and a built-in 10W speaker for quick and easy switching between different devices and audio sources, the LH600ST has you covered with versatile connectivity options when hooked up to a game console, streaming device, or speaker. Long-Lasting, Accurate, and Vivid Colours Vivid Image Reproduction Equipped with an LED that delivers 95% Rec. 709 wide colour gamut, the LH600ST displays true-to-life and highly accurate colours. This results in a realistic and immersive viewing experience, bringing your content to life with vibrant and precise colour performance over a 20,000-hour light source lifespan. High Brightness LED Experience stunning brightness with the BenQ LH600ST LED projector. Its highly vibrant colours combine with strong brightness to create an eye-catching H-K Effect, providing an immersive and realistic viewing experience. DLP Technology for Lasting Vibrant Colours The highly durable DLP chip lasts over 100,000 hours without degradation, ensuring true-to-life colours and pristinely legible text over countless uses. Exclusive Colour Modes The LH600ST offers various colour modes, allowing users to choose preferred colour tuning for different scenarios. BenQ exclusive Golf Mode adds colour to better render
