Description
Extended product overview

The BenQ MH550 is a high-performance business projector designed to deliver exceptional presentations with its advanced features and user-friendly design. With a brightness of 3,500 ANSI lumens and a high contrast ratio of 20,000:1, the MH550 ensures clear and vibrant images, even in well-lit meeting rooms. This projector offers Full HD resolution (1920x1080) with a native 16:9 aspect ratio, providing sharp and detailed visuals suitable for various presentation formats. Equipped with dual HDMI inputs, the MH550 allows seamless connectivity with multiple devices, facilitating flexible multimedia presentations. BenQ's SmartEco technology intelligently adjusts lamp power consumption, reducing energy usage by up to 70% without compromising picture quality. This not only extends the lamp life but also lowers maintenance costs, making the MH550 an energy-efficient choice for businesses. The MH550 features Auto Vertical Keystone correction, which automatically aligns the image to a perfectly squared shape, even when the projector is placed at an angle. Additionally, the retractable adjustment foot provides enhanced flexibility, allowing easy setup in various meeting room configurations. For added convenience, the projector includes a USB Type-A port with a 1.5A power supply, enabling charging of smart devices during meetings. The inclusion of a Kensington Lock ensures the device is secure, deterring potential theft. With its combination of high brightness, versatile connectivity, energy-saving features, and user-friendly design, the BenQ MH550 is an ideal solution for professional presentations and business meetings.
