Description

Extended product overview

BenQ MU613 WUXGA data video projector WUXGA 1920x1200 4000 ANSI lumens 3D via HDMI MHL High resolution and bright projector for a high quality and reliable daily presentation in the meeting room. Designed for today's businesses where users often present infographic-style slides. The BenQ MU613 features unique color matching, optional wireless presentation and WUXGA 16:10 resolution. Thus, the MU613 is able to assist the user in presentation in modern companies and to make the internal or external communication effective. WUXGA resolution for improved details and advanced content The MU613 comes with a native WUXGA resolution of 1920 x 1200 pixels. With the boom of WUXGA Smart Devices, the MU613 offers a response resolution for users. This brings you crisp images in every presentation! Vertical keystone for a perfect alignment The vertical keystone counteracts the trapeze effect when the projector needs to be angled, e.g. by simply placing it on a table, and adjusting the image for a square image. Keystone correction makes it easy to project ideally aligned images from a variety of positions.
