Extended product overview

Get full throttle and be there with all your might! The TH685P is designed for ultimate gaming - with ultra-low input lag -so you can experience your video games in real time. Stunning 1080p HDR graphics and 3,500 ANSI lumens brightness keep the action intense, even in daylight. Stunning sound immerses you in epic gameplay like you've never seen before. Experience the following highlights: 1080p Full HD with HDR and with 4K Compatibility 8.3ms response time Smooth gameplay at 1080p/120Hz 3,500 ANSI lumens 15,000 hours lifetime Are you ready? Projected images in FULL HD 1080p, hyper-realistic contrasts and details thanks to HDR, will surpass your previous gameplay. Together with the TH685P and your favourite video game console, you can lead your team to victory. Low input lag Low input lag can give you the edge in a tight NBA game. The TH685P's low input lag of just 8ms will ensure smooth gameplay in virtual real time. This is especially great for fast-paced sports as well as response-critical shooters and battle arenas. Profit from the exclusive Game Mode The TH685P's Game Mode enables precise image enhancement by making dark and shadowy scenes as clear as possible, regardless of ambient light, helping you advance to the next level. Hear your enemy's every move The TH685P's built-in 5-watt speaker highlights every sound in FPS with its fine-tuned Game Sound Mode. With physical acoustics and psychoacoustics, the TH685P delivers precise and refined sound.
