## Description

Extended product overview

The BenQ TK710STi is a 4K UHD laser short-throw projector designed for casual gaming and home entertainment, delivering high-quality visuals and responsive performance. High Brightness and Contrast With a brightness of 3200 ANSI lumens and a contrast ratio of 600,000:1, the TK710STi ensures clear and vibrant images even in well-lit environments. True 4K UHD Resolution The projector offers a 4K UHD (3840 x 2160) resolution with 8.3 million distinct pixels, providing detailed and sharp images for an immersive viewing experience. Low Input Lag for Gaming Designed for gamers, the TK710STi features ultra-fast low input lag, with 4ms at 1080p@240Hz, 8ms at 1080p@120Hz and 2K@120Hz, and 16ms at 4K@60Hz, ensuring responsive gameplay without delay. HDR Game Modes The projector includes specialized HDR game modes tailored for different game genres, such as HDR-RPG for vibrant colors and HDR-FPS for enhanced dark details, optimizing visuals based on game type. Flexible Installation Options The TK710STi supports multiple installation methods, including tabletop, shelf placement, and ceiling mounting. Its short-throw design and 1.2x zoom allow for a 100-inch screen projection from just 1.5 meters away, making it suitable for various room sizes and setups. Smart Entertainment Integration Powered by Google-licensed Android TV, the projector provides access to a wide range of streaming services, including Netflix, Prime Video, Disney+, and YouTube, offering seamless content streaming in true 4K. Comprehensive Connectivity Equipped with dual HDMI 2.0b ports, the TK710STi ensures compatibility with various devices, such as gaming consoles (PS5, Xbox Series X, Nintendo Switch), Blu-ray players, and streaming devices. Additionally, eARC support enables unaltered full-resolution audio signals, including 7.1-channel and Dolby Atmos, to be transmitted to your sound system through a single HDMI cable. Durable Laser Light Source Utilizing laser technology, the projector offers up to 20,000 hours of light source life, providing long-lasting performance without the need for lamp replacements. The BenQ TK710STi combines high-resolution visuals, low input lag, and smart features, making it an excellent choice for both gaming enthusiasts and home entertainment setups.
