Description

[Extended product overview](#)

Powered by a 3LCD laser, the EH-QB1000W delivers bright (3,300lm) images up to 300" at 4K resolution (3840 x 2160). Also offering a 5,000,000:1 dynamic contrast ratio, plus other image-enhancing features such as 4K frame interpolation, super resolution, dynamic tone mapping and HDR10+ to provide the ultimate entertainment experience, from movies and sports to gaming, in any media space. Key Features: Superior home entertainment Cutting-edge big-screen technology, ideal for films, sport and gaming in a bright environment Bright images up to 300" 3LCD laser source, 3,300lm, 4K (8.3m pixel), perfect for any bright space Advanced features 4K frame interpolation, HDR10+, 4K/120Hz and Auto Low Latency Mode Easy to set up and use Flexible positioning, motorised zoom and focus Convenient management Full IP control with Crestron, Control4 and wired LAN connectivity Outstanding home entertainment in any space Immerse yourself in a big-screen experience that takes home entertainment to a new level. Combining a range of unique technologies to deliver a new standard in image brightness and quality with up to 3,300 lumens, this new and leading-edge projector from Epson delivers a truly stunning performance in any room, whether it's a dedicated media space or a well-lit living area. Whether you're into movies, sport, or gaming, you'll find the EH-QB1000B delivers a whole new dimension of enjoyment. 3LCD technology for ultra-high image quality Built around Epson's advanced 3LCD laser technology, the EH-QB1000B brings stunning levels of clarity and sharpness to screens up to 300" with 4K super-resolution images (3840 x 2160). With a 5,000,000:1 dynamic contrast ratio for well-defined shadows and even deeper blacks, this Professional Home projector also features enhanced frame interpolation to create a smooth image and four colour modes, allowing easy optimisation for different viewing environments. Advanced features for excellent versatility With advanced features such as Dynamic Tone Mapping to enhance visual quality on a frame-by-frame basis, and HDR10+ for more vivid and lifelike colours, the EH-QB1000B delivers an outstanding viewing experience for both movies and sport. But the amazing versatility of this breakthrough projector doesn't stop there. With HDMI 2.1 connectivity, a 4K/120hz refresh and Auto Low Latency Mode, it offers a superbly smooth gaming experience too. Great positioning flexibility and easy management Featuring motorised lens shift with large range, as well as motorised zoom and focus, the EH-QB1000B offers outstanding positioning flexibility – so you never need to worry about installation in your living room. Plus, its integrated Crestron, Control4 and RS232C/wired LAN support means that it can be easily integrated into a Smart Home Network, making it an even more convenient viewing experience
