## Description

Extended product overview

4K AI Clarity Elevates every pixel The sophisticated DLP system controls 2.07 million micromirrors to deliver sharp 4K pictures up to 200 inches, while the AI 4K Clarity provides finely-detailed visuals and crystal-clear precision in every pixel. Pure Triple Colour Laser Advanced pure tri-colour laser Witness incredibly vivid colours right before your eyes. The M2 PRO features advanced laser technology, delivering depth and nuance like no other. 110% BT.2020 Super Wide Colour Space 3EH0.9 Super High Colour Accuracy Optical Zoom 1.0-1.3 Zoom in! Zoom out! Zoom in and out without compromising picture sharpness or clarity. The flexible zoom of 1.0–1.3 throw ratio always keeps the image at 4K, however close you get. 65"-200" Wide Projection Size Create the ultimate viewing experience. This projector adapts to any screen size from 65 inches to 200 inches, so you can project onto a wall in your living room or a gigantic screen in your backyard. Powered By VIDAA VIDAA - Easy to Use, Fast, and Secure Stream your favourite series and the latest movies directly to your projector. Watch all the hottest picks from Netflix, YouTube, Disney+, and more. \*App availability may vary by country. Dolby Vision Stunning detail, everywhere you go Thanks to Dolby Vision, whether you want to catch up on the latest content or simply enjoy your favourite games, this projector delivers original content with better detail in the shadows and brighter highlights. Dolby Audio Depth. Detail. Dimension. Highs and lows play their parts perfectly - crystal-clear highs from dedicated tweeters, deep resonant lows from powerful woofers, all working in harmony for distortion-free, immersive sound. With Dolby Audio & DTS Virtual X, every beat feels cinematic. True Brightness - 1300 lumens Catch every detail With a true 1300 lumens of brightness, enjoy a vivid viewing experience even in low-light environments—every scene, perfectly illuminated. AI Colour Correction Beauty, refined. Experience colours perfected, natural skin tones, and richer details in every scene. AI Colour intelligently analyses and enhances your content frame by frame—so what you see feels vibrant yet balanced.
