Extended product overview

Hisense LPU® Technology Revolutionary LPU Digital Laser Engine 110% BT.2020 Super-wide colour gamut EH0.9 Super-high colour accuracy 4K UHD High Resolution A scene with incredible clarity 2500 ANSI Lumens Brightness Comfortable perceived brightness 80"-150" Projection Size A boundless world of WOW Utilizing Ultra Short Throw Technology, the PT1 projects vivid, lifelike images ranging from 80 inches up to a massive 150 inches. Just place the console at the right distance from your wall to deliver the perfectly sized picture for your room, even in a compact space. IMAX ENHANCED Unleash IMAX power at home IMAX-quality cinema is now within reach. Hisense's PT1 is certified by IMAX and Hollywood's leading technical specialists to bring IMAX's signature picture quality right into your home. Experience the world's most innovative movie-going technology with breathtaking visuals and immersive sound. Dolby Vision Ultimate black and white Experience layered visuals that are rich, detailed, and true to life. With 3000:1 contrast, lights dazzle, and shadows deepen. Dolby Vision and support for multiple High Dynamic Range (HDR) standards further enhance depth, contrast, and intricate details for a truly cinematic experience. Dolby Atmos Surrounds your senses Experience powerful, front-firing sound with dual 15W speakers, while dual 8W up-firing speakers enhance every detail with crisp precision. Powered by Dolby Atmos, immerse yourself in a truly elevated audio-visual experience. 4K AI Clarity Clarity tailored to every scene The sophisticated DLP system controls 2.07 million micromirrors to deliver sharp 4K pictures up to 150", while the AI 4K Clarity provides finely detailed visuals and crystal-clear precision in every pixel. 2500 Lumens Brightness Brightness that helps your content shine Step into a world where dazzling light meets rich shadow. With an impressive 2500 ANSI lumens of brightness, every detail comes to life in stunning clarity. Advanced AI Light Optimization automatically adjusts brightness based on your environment and what you're watching—delivering vivid, comfortable viewing every time. AI Colour Colours are intelligently enhanced Enjoy richer, more accurate colours that go beyond what typical displays can offer. Every frame is fine-tuned by AI Colour Technology to give you a true-to-life viewing experience. Filmmaker Mode Experience content as intended Filmmaker Mode preserves the charm of the creator's vision. Restoring settings to the original aspect ratio, colours, and frame rate, it delivers an authentic cinematic experience exactly as the director envisioned. Auto Screen Alignment Fits the screen Set up your Laser Cinema in seconds. Activate the auto screen alignment function, simply position your PT1, and let its cameras do the rest. *The screen needs to be purchased separately. *This function is available only for screens within 120 inches. Powered By VIDAA VIDAA - Easy to Use, Fast, and Secure Stream your favorite series and the latest movies directly to your projector. Watch all the hottest picks from Netflix, YouTube, Disney+ and more. *App availability may vary by country. Game Mode Game faster, win sooner Experience ultra-smooth motion and razor-sharp visuals like never before. With refresh rates reaching up to HSR240, you'll catch every split-second of the action. Thanks to Auto Low Latency Mode, your projector automatically detects when your
