Description

Extended product overview

The ProLite B2283HS is an excellent 22 Full HD LED-backlit monitor with 1920 x 1080p resolution. It features 1ms response time and 80 000 000 : 1 Advanced Contrast Ratio, assuring clear and vibrant picture quality and high contrast. Triple Input support ensures compatibility with the latest installed graphics cards and embedded Notebook outputs. The ergonomic stand offers 13 cm height adjustment with pivot and swivel, making this screen suitable for a wide range of applications and environments where workplace flexibility and ergonomics are key factors. The monitor is TCO Certified. A perfect solution for education, local government, business and finance markets. HAS + Pivot With a height adjustable stand you will create an ergonomic work posture and position that meets all health and safety requirements. This will not only prevent any health issues but will also increase your productivity. The pivot function allows the screen to rotate from landscape to portrait orientation. This functionality can be useful if the application requires more height than width. Flicker free Controlling the monitors brightness through electric current has allowed us to eliminate the screen flicker. You can easily test it yourself just look at the screen via you smartphones camera. Your eyes will love it. OverDrive ON / OFF When very fast graphics are displayed your monitor can sometimes get blurry. Turning on the OverDrive feature will eliminate that. Speakers and headphones Playing with friends? Use the integrated high quality speakers. Dont want to disturb anybody? Plug your headset to the headphone socket and turn the volume up. ACR Contrast Ratio is a measurement of the difference between the darkest black and the brightest white your monitor can display. Advanced Contrast Ratio is a feature that automatically adjusts contrast and brightness of the screen to assure perfect picture quality while watching films and playing games.
