Description

Extended product overview

32" Full HD Professional Digital Signage 24/7 display featuring Android OS and FailOver Choose non-stop high performance and reliability with the ideal all-in-one signage solution for mission critical environments. The LH3275HS from iiyama can be operated in landscape or portrait orientation in continual around the clock environments, 24/7 without any interruption. Its versatility can be adapted to your industrys display needs. On-board Android 11 OS means you can easily customize the display to your needs and install applications directly to it. The on-board iiSignage (Content Management System) gives you total control of your messaging and advertising remotely and safely. The FailOver feature ensures your content is always actively displayed through your choice of inputs. The built-in (and removable) WiFi module means this series is ready for remote content delivery using your network. With the EShare app you bring effortless ideation and efficient collaboration in your enterprise or school. You can start sharing wirelessly easier than ever before. ANDROID OS Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it. IISIGNAGE iiSignage is our digital signage content management platform to easily show and control your content and to manage your displays in a secure way. The Content Management System (CMS) gives you total control of your messaging and advertising remotely and safely. SIGNAL FAILOVER FailOver is a feature which automatically detects input sources. When there is no signal on the default input it will automatically switch to the next available input. FailOver allows customers to prioritize a number of inputs (incl. Browser, Media Player and Custom) and ensures your content is always actively displayed, assuring active content at all times. MEDIA PLAYER Play your favourite music and show your most beautiful videos, photos and images directly on screen from a flash drive or the internal memory with the built-in media player. FULL HD With true 1920 x 1080p resolution your monitor is ready to display high definition images. This means you can accommodate more information on your screen; e.g. 60% more in comparison to a 1280 x 1024 monitor.
