## Description

Extended product overview

Built into a rugged, edge-to-edge glass bezel the ProLite OTF2216MC-B1 guarantees high durability and scratch-resistance, making it perfect for high use public facing applications. Landscape, portrait and face-up orientation ensure flexibility in any type of installation. It offers a brightness of up to 935 cd/m<sup>2</sup>, the content displayed will be visible even in very bright environments. The anti-glare display is UV resistant and IP65 protected, ensuring durability against sunlight, dust and water resistance from the front, additionally it can operate in temperatures ranging from -20°C up to +60°C. The anti-fingerprint coating ensures a smoother touch. A reliable solution for pick-up points and kiosks. A proximity sensor turns off the screen when no one is present, an ambient light sensor adjusts screen brightness, and a temperature sensor controls fan speed for cooling, resulting in energy savings and extended product durability. For ease of integration, the ProLite OTF2216MC-B1 can be equipped with optional external mounting brackets (OMK3-1) making it an ideal solution for kiosk integrators, industrial environments, control rooms and interactive multimedia.
