Description

Extended product overview

65" Interactive 4K UHD Touchscreen featuring a 4K interface with User Profiles Collaboration for education and enterprise made simple. The TE6512MIS-B1AG from iiyama inspires all possibilities in all stages for education, start-up and large-scale businesses. With our hybrid interactive solution, you can smoothly annotate in 4K and control any content on the display from any source. This PureTouch-IR 40-point Touchscreen with iiWare 10 (Android 11 OS) features Note, Browser, Cloud Drive and the option for you to sideload relevant apps you require for your organisation. It comes with dual function Touch pens, and you can easily save your notes and on-screen content directly to a USB device, 32GB internal memory or a selected cloud drive. Including an additional USB-C connection, the display supports the latest in video, audio and Touch signal via a single port and even charge your device with 65W power delivery. With a 4K UHD resolution (3840x2160) and 400cd/m² brightness this 65" IPS LCD screen provides vibrant, detailed, and high-quality images from anywhere in the class or meeting room. The anti-glare coating drastically reduces ambient reflection in high-brightness environments without compromising the sharpness and clarity of the image. You can be sure that no matter what your Interactive aspiration, iiyama has the simplified solution just for you. Boasting a new 4K Interface with User Profiles for simple login and access to your very own bespoke menu and Cloud Drives, the TE6512MIS-B1AG becomes a highly personalised device within a busy hybrid environment for multiple users. Share, stream and edit content from any device directly on screen and transform your team meetings or lessons into an easy, fast and seamless interactive session with the included WiFi module (OWM002), ScreenSharePro and EShare app.
