## Description

Extended product overview

The ProLite TF3215MC-B2 with 30-point PCAP touch technology is a open frame monitor with an eye-catching edge-to-edge glass design. Thanks to this completely frame-less glass surface, it guarantees high durability and scratch resistance, making it perfect for kiosk systems and high-traffic public applications. The VA panel technology offers higher contrast and darker blacks. Equipped with a foam seal, the monitor supports seamless integration and the IP65 rating ensures dust and water resistance from the front. Portrait and landscape orientation ensures flexible mounting options for 24/7 operation in almost any installation. The TF3215MC-B2 is the ideal solution for kiosk integrators, industrial environments, control rooms and interactive multi-media applications.
