## Description

Extended product overview

21.5 IPS Full HD monitor with USB hub and 100Hz refresh rate Stylish edge-to-edge design makes the ProLite XU2293HSU perfect for multi-monitor set-ups. The IPS panel technology offers accurate and consistent colour reproduction with wide viewing angles. High contrast and brightness values mean the monitor will provide excellent performance for photographic and web design. Equipped with speakers, headphone socket, 2 port USB hub, HDMI and DisplayPort connections, a blue light reducer function to reduce eye fatigue for user comfort, this 21.5 display is a great choice for home and office applications. IPS TECHNOLOGY IPS displays are best known for wide viewing angles and natural, highly accurate colours. They are especially suited for colour-critical applications. FULL HD With true 1920 x 1080p resolution your monitor is ready to display high definition images. This means you can accommodate more information on your screen; e.g. 60% more in comparison to a 1280 x 1024 monitor.
