## Description

Extended product overview

24 IPS, Full HD panel with B energy class The XU2463HSU-B1 is the product choice for the environmentally aware, a choice that helps drive progress towards a more sustainable future. To achieve this, we use zero plastic to pack this product and the product housing itself is made of 85% post-consumer recycled materials. The monitor is also TCO Certified and meets EPEAT Silver criteria. To take care of your eye health, it complies with the Eye Safe and Eye Comfort Certifications. Based on IPS panel technology the Full HD XU2463HSU-B1 assures wide viewing angles and highly accurate colours. Thank you Thank you for making a responsible product choice, that helps drive progress towards a more sustainable future. To achieve this, we use zero plastic to pack this product and the product housing itself is made of 85% post-consumer recycled plastics. 100% of the packing is fully recyclable. Better Choice - Certified This product meets 100% of the TCO Certified criteria, the worlds most comprehensive sustainability certification for IT products. It also meets the EPEAT Silver criteria covering both Environmental and Social Responsibility Assessment set out by EPEAT - worlds premier ecolabel for electronics. Same as each electronic equipment sold in the EU, it complies with the The Restriction of Hazardous Substances Directive 2002/95/EC (RoHS 1) on the restriction of the use of certain hazardous substances. However, although the directive allows for use of up to 0.1% of mercury, this product is 100% mercury free. Save electricity, maintain picture performance Choosing a monitor with B energy class means you effectively save electricity without compromising on performance - the power-efficient feature using the most efficient LED backlight technology in combination with high efficiency colour filter maintains brightness and vivid colours so the picture performance stays unaffected. Take care of your eyes Based on optical testing and research led by optometrists and ophthalmologists from across the globe, the Eye Safe Certification, means this product provides always-on blue light protection reducing high-energy blue light yet maintaining colour performance intact. It also meets the requirements of the Eye Comfort Certification confirming the product has reduced blue light and is flicker free to protect eyes and preserve user vision and allow the user to change body position without compromising visual image quality. IPS Technology IPS displays are best known for wide viewing angles and natural, highly accurate colours. They are especially suited for colour-critical applications. USB hub A built-in USB hub allows you to connect multiple USB devices, like for example a headset, to your monitor.
