Description

Extended product overview

The elegant 3-side borderless design makes the ProLite XU2792QSU perfect for multi-monitor set-ups. The IPS panel offers accurate and consistent colour reproduction with wide viewing angles and the WQHD (2560 x 1440) resolution means the XU2792QSU can accommodate almost 77% more information on the screen than a Full HD display. High contrast and brightness values guarantee the monitor will provide excellent performance for photographic and web design. It is a great choice for both multi-monitor office applications and more specific design applications.
