Description

Extended product overview

27 Full HD IPS monitor with edge-to-edge design, perfect for multi-monitor setups Stylish edge-to-edge design makes the ProLite XU2793HS perfect for multi-monitor set-ups. The IPS panel technology offers accurate and consistent colour reproduction with wide viewing angles. High contrast and brightness values mean the monitor will provide excellent performance for photographic and web design. Equipped with speakers, headphone socket, HDMI and DisplayPort connections, a blue light reducer function to reduce eye fatigue make this 27 monitor a great choice for both multi-monitor configuration and office applications. IPS TECHNOLOGY IPS displays are best known for wide viewing angles and natural, highly accurate colours. They are especially suited for colour-critical applications. BLUE LIGHT REDUCER As we all know looking at a monitor screen for several hours per day, especially form a closer distance, causes eye fatigue. This effect is much stronger with computer screens than with TV equipment. One of the factors responsible for this phenomenon is the blue light emitted by the screen. Therefore reducing the amount of blue light ultimately allows our eyes to feel less tired while working long hours with a computer screen. We achieved it by adjusting the monitor's brightness and color temperature through a new feature called Blue light reduction easily accessible through the monitors OSD menu. SPEAKERS AND HEADPHONES Playing with friends? Use the integrated high-quality speakers. Dont want to disturb anybody? Plug your headset into the headphone socket and turn the volume up. ACR Contrast Ratio is a measurement of the difference between the darkest black and the brightest white your monitor can display. Advanced Contrast Ratio is a feature that automatically adjusts contrast and brightness of the screen to assure perfect picture quality while watching films and playing games. VESA VESA mount compliance means you can easily mount the display to any mounting that complies with the VESA standard.
