Description

Extended product overview

Universal soundbar bracket for floor lifts and wall mounts Upgrade the audio of your iiyama floor lift/ wall mounted large format display with this universal soundbar bracket and enjoy a better sound. The soundbar bracket allows you to install and use a soundbar below the display on our (height-adjustable) floor lifts and wall mounts. The soundbar bracket is mounted in between the back plate and the display using the display's lower VESA mounting bolts. The bracket has a VESA width of 400/600. Max. distance between center lower VESA mounting holes and center soundbar mounting holes is 515mm. The bracket can be used in combination with an adapter set for displays with a larger VESA mounting pattern. Works with most soundbars. Soundbar not included. For use in combination with MD 052W7150, MD 062B7275, MD 062B 7295. For additional compatibility, please contact us for more information.
