### Description

Extended product overview

Optoma HD28e 1080 Projector Big screen entertainment for sports fans Feel the action with the HD28e. Experience every moment on the big screen for immersive live sports. Convenient and easy to set up this compact high brightness projector is ideal for well-lit environments so sports fans can enjoy live action with family or friends with the lights on. Boasting Amazing colour technology, it delivers accurate true-to-life colour reproduction for movie lovers. It also has low input latency – perfect for games that rely on rapid reactions. An integrated speaker provides sound and the HDMI input enables connection to multiple devices such as set-top boxes, games consoles and HDMI dongles. You can take it to a friend's house with the optional carry bag for a sports event, movie night or games marathon – anywhere with a flat surface. Lights on viewing This all-round home entertainment projector combines high brightness and vivid colours for vibrant, true-to-life visuals in well-lit environments\* - ideal for watching TV shows, sports and movies or gaming with family or friends any time of day. \*With no direct sunlight or lights directed on screen. Full HD 1080p 1080p resolution gives you sharp and detailed images from HD content without downscaling or compression; perfect for watching Blu-ray movies, HD broadcasting and playing video games. Amazing colour Watch your movies, TV shows and play games with stunning colours in any environment. Optoma projectors provide reliable performance suitable for any content and environment. Our home projectors are capable of reproducing the Rec.709 colour gamut, the international HDTV standard to guarantee accurate reproduction of cinematic colour exactly as the director intended. Or more saturated colours for a punchy looking image, great for gaming and animated movies. Dynamic black technology Dynamic black technology improves the depth of your image by smoothly adjusting the lamp output, based on the brightness information of each frame; to create a stunning high contrast ratio. Bright scenes appear crisp and clear, while dark scenes remain detailed with deep blacks and exceptional light and shade detail. Full 3D Display true 3D content from almost any 3D source, including 3D Blu-ray players, 3D broadcasting and the latest generation games consoles. Game mode Game mode optimises your projector for maximum contrast and vivid colours to capture every detail - leaving you time to focus on winning. Integrated speaker A built-in speaker offers excellent audio support and an easy setup without the need for costly external speakers ISF modes This feature allows you to save your calibrated day and night mode settings for the highest possible viewing experience. 24p Most movies are shot at 24 frames per second (fps). To preserve the purity of the original image, Optoma projectors can accept high definition sources at 24 fps to display movies exactly as the director intended. USB-Power Use the USB-A port to power external devices (5V/1.5A) Auto power off There may be instances when the projector is left running when not in use. To help save energy, the "auto power off" feature automatically turns off the projector after a set period of time if it is not being used Quick resume This feature allows the projector to be instantly powered on again, if it is accidentally switched off Wireless option Wirelessly stream Full HD 1080p and 3D content from a Blu-ray™ player, set-top box, games
