## Description

Extended product overview

Photon Life PK32 Home Projector Level up the way you enjoy your entertainment with the Photon Life PK32. Experience your movies, TV and gaming like never before with the Photon Life PK32 – a premium home entertainment projector powered by advanced 4LED technology for brighter, bolder, and more lifelike visuals. From epic movie nights to intense gaming sessions, this projector delivers breathtaking 4K UHD clarity that brings every scene to life. With HDR, 1100 ISO lumens, and up to 150 inches of big-screen brilliance, enjoy stunning vibrancy and detail even in low-light environments. The Photon Life PK32 covers 95% of the DCI-P3 colour gamut, ensuring true-to-life colour accuracy for an immersive cinematic experience. Built for gamers, the ultra-low 4.6ms input lag ensures smooth, real-time responsiveness—so you never miss a beat. Plus, with a versatile USB-C input, you can easily connect and play on your terms, whether you're at home or on the go. Setup is a breeze with auto focus and auto keystone correction powered by Time-of-Flight (ToF) technology, delivering a perfectly sharp and aligned image in seconds—no fiddling required. With a 30,000-hour LED lifespan, sleek design, and smart features, the Photon Life PK32 is your all-in-one solution for immersive, hassle-free entertainment at anytime. Features 4K UHD 4LED Technology Enjoy bright, immersive entertainment with 1100 lumens of vivid clarity. Whether it's movie night or gaming with friends, the Photon Life PK32 delivers crisp and vibrant visuals. Place and Play ToF Auto vertical keystone and focus automatically adjusts for a clear, sharp and perfectly straight image. Super-fast Gaming Ultra-low input lag of 4.6ms gives gamers real-time responsiveness, leaving your competition in the dust. Built in speakers No need for extra sound equipment thanks to the two built-in 5W speakers. Fast for gamers. Smooth for shows. Easy for you. Fast, compact, and easy to use, this 4K projector delivers low-lag gaming and sharp visuals in one smart package. Experience smoother gameplay with 4.6ms ultra-low input lag, reducing delays for more responsive controls. \*Input lag as low as 4.6ms at 1080p 240Hz. Actual performance may vary depending on settings. Big Screen Entertainment Turn any room into a big-screen experience perfect for movies, gaming and streaming, capable of producing an image up to 150". Pure brightness, true colors Enjoy sharp, vibrant visuals with HDR, HLG and wide color support including Rec. 709 and DCI-P3 for more authentic, true to life colour reproduction. Whether you're deep into a gaming session or binge-watching your favorite shows - crisp detail and rich color make every big screen moment captivating. Auto keystone and focus correction Auto keystone and focus automatically adjusts the projector image to create a perfectly aligned, crystal clear image within an instant. 2x 5W built-in speakers, made for play anywhere moments Built-in audio keeps things immersive on the go. Great for casual watching, background music, or late-night gaming. Space Saving Design Place it your way - on any flat surface, ceiling, or tripod, the Photon Life series is perfectly compact for any space, anywhere.
