Extended product overview

Bright 4K UHD Dual Laser home entertainment projector Bring home the next generation of home cinema with our cutting-edge 4K UHZ68LV projector, powered by Dolby Vision® and PureEngine™ Ultra technology for stunning visuals and unmatched clarity and colour accuracy. Dolby Vision and HDR10+ deliver stunning picture quality, bringing your favourite films and TV shows to life. Dolby Vision optimises each frame individually, resulting in a more dynamic and immersive viewing experience. HDR10+ enhances the dynamic range and colour precision of your content, providing greater visual detail and depth. Featuring Dual laser technology, the UHZ68LV combines true-to-life colour accuracy (95% DCI-P3) and sharper resolution with a long-lasting and reliable cinematic experience, offering up to 30,000 hours of uninterrupted viewing. Immerse yourself in stunning visuals with PureEngine™ Ultra, delivering carefully calibrated colour and incredible detail. Whether it's fast-paced action or dramatic visuals, the UHZ68LV delivers smooth motion with striking clarity. Watch movies as the director intended with Filmmaker Mode. ISF modes automatically adjust the picture for the perfect viewing experience, day or night. Designed for flexibility, 5000 lumens of brightness ensures vivid image quality in any room, while easy installation features like lens shift, 360-degree projection, keystone and 4 corner correction mean you can create a true home cinema experience, wherever you choose to watch. Features: 4K UHD dual-laser technology – Immerse yourself in stunning visuals with 5000 lumens and 95% DCI-P3 colour accuracy Powered by Dolby Vision® and HDR10+ – Experience cinema-quality picture with incredible brightness, contrast, and colour PureEngine™ Ultra – Enjoy smooth motion, sharp details, and customised picture settings Flexible Installation – Adapt to any space with 1.6x zoom, lens shift, and 360-degree projection Powered by Dolby Vision® and HDR10+ Dolby Vision® optimizes each frame of your content, elevating your cinema experience by delivering remarkable brightness, contrast, and color that bring cinematic experiences to life. Meanwhile, HDR10+ enhances your content's dynamic range and color precision, providing greater visual detail and depth. Cinematic Entertainment, Anytime 5000-lumens ensures stunning visuals even in well-lit environments. Whether you're hosting a daytime movie marathon or enjoying sports events, the high brightness allows you to experience vivid colours and sharp details without compromising image quality. True 4K UHD Resolution Ultra HD 4K resolution delivers sharper, life-like images and richer colours - allowing you to sit closer to the screen and enjoy a more immersive experience. Our DLP projectors provide CTA (Consumer Technology Association) approved True 4K UHD resolution, capable of projecting 8.3 million on screen pixels. That's four times more detail than Full HD and twice as many from competing technology, which only delivers 4.1 million pixels. Experience exceptional colour Delivering 100% Rec.709 and featuring a wide colour gamut mode with 95% DCI-P3 coverage, the UHZ68LV ensures accurate and lifelike colours. Whether you're watching movies or playing games, the UHZ68LV brings brilliant hues and deeper blacks to your screen. and color precision, providing greater visual detail and depth. Crystal Clear and Vibrant Visuals with 4K UHD Dual Laser Elevate your home cinema with 4K UHD Dual laser projection, combining vivid colour accuracy, higher brightness and greater visual depth and detail for a long-lasting and reliable cinematic experience. PureEngine™ Ultra | Next gen Visual
