Description
Extended product overview

The Pico Genie Impact 2.0 Plus Elite projector now with Android 9, Zoom, 4K compatibility, and 3D support is the latest addition to Pico Genie's line of portable projectors. This new model is an upgrade from the Pico Genie Impact 2.0 Plus with enhanced features, making it even more versatile! The perfect portable projector for home entertainment, education, art, and business presentations and much more! Upgraded Features (On Impact 2.0 Plus Elite model) 4K Compatible Zoom IN/OUT Feature - Reduce images without moving the projector 3D Support SmartTV (Android 9.0) Extended app life through third-party maintenance. Find Out More DLP LED benefits: Smaller, lighter, improved throw, offset/positioning, battery, truly wireless, improved contrast (compared to LCD LED). Find Out More Key Features Global Plug system (UK, EU, USA, Australia) FWVGA (854×480) Resolution Smart TV (Android 9) Extensive Connectivity Options Wireless & Wired mirroring USB, HDMI & Aux Inputs Wi-Fi & Bluetooth Manual Keystone & 4 Corner Correction Built-in Speaker 12 Months Warranty The Pico Genie 2.0 and 4.0 Plus Projectors: A Comprehensive Comparison Your browser does not support our video. Zoom Out / In The Impact 2.0 Plus Elite Portable Projector now offers a new convenient zoom out/in function, allowing adjustments to the image size without moving the device! Optimize the perfect size for your screens, surfaces, or canvases for art/tracing from further away without the projector getting in the way of your projects or media! To see the zoom-out function in action, see the "Comprehensive Comparison" video above (3m 22s). Interface The user interface has been improved since the original Impact 2.0 standard model to make it even more intuitive, while the touchpad makes it easy to navigate the menus and adjust settings even if you lose the remote. Smart TV Projector Powered by AndroidTV 9, the Pico Genie Impact 2.0 Plus Elite offers seamless access to all your favorite streaming services, including Netflix, Amazon Prime, and YouTube. Download whatever apps you need from the Play or Aptoide Smart TV store. Projector With Built-in Battery The Pico Genie Impact 2.0 Plus Elite can run on either mains or battery power. Its upgraded battery offers 25% more capacity and provides up to 2 hours of playback, giving you longer viewing time when you're on the go. Charge using a power bank or via the mains. Charge using a power bank or via the mains. Easy Setup Portable Projector The Impact 2.0 Plus Elite projector can be placed anywhere and projected onto any surface! Easily set up to match your needs, this projector features advanced installation such as both vertical and horizontal keystone correction via 4-corner projection. The Pico Genie Impact 2.0 Plus Elite projector has a standard tripod thread so you can easily mount it on a tripod and project in your preferred location. More Compatible Charging The Pico Genie Impact 2.0 Plus Elite has a USB-C charging port for faster charging and improved reliability. This projector also comes equipped with an international plug system, making it an ideal companion for your travels (Type UK, EU, USA, Australia). Wide Range of Connectivity Suitable for all external devices such as Android/IOS mobiles, laptops/PCs, tablets, and more with its extensive connectivity options. Connecting to mobile phones has never been simpler with this device. For Apple iPhone users, it offers a crucial direct-wired connection without the need for expensive HDMI to Lightning adapters. Simply plug in using your existing USB lightning charging cable to connect the phone, making it a joy to use wired or wirelessly (some newer IOS devices use USB-C and will require a USB-C to Mini HDMI adaptor for wired screen mirroring). Wired Android USB-C mirroring is also available if DP-Alt Mode or DeX supported via
