Description

Extended product overview

The PA700S is ViewSonic's high-brightness SVGA projector for corporate and educational environments. With a high brightness of 4,500 ANSI lumens, the projector provides clear images on a screen up to 300" in conference rooms, classrooms or other bright environments. The two HDMI ports give you the flexibility to connect multiple devices and easily switch between content sources. The USB Type-A port can power wireless HDMI dongles, making wireless content streaming even more convenient. The projector also allows software updates via a simple USB cable connection to your laptops, saving you a trip to the service centre. 4.500 ANSI lumens for clear images in any environment Up to 300" ultra-large screen with a lower cost per inch Easy and flexible connectivity options: two HDMI ports, USB Type-A port Vibrant colours with ViewSonic's SuperColor™ technology Convenient projector software updates via USB port High brightness for business and education environments Thanks to the brightness of 4.500 ANSI lumens, a clear and vivid display is guaranteed, perfect for rooms with a lot of ambient light. Ultra-large screen with a lower cost per inch The projector allows an image size of up to 300 inches, which is much larger and easier to install than commercial displays. Easy and flexible connection The two HDMI ports provide ample connectivity for all HDMI-enabled multimedia devices, so you don't have to unplug your existing device to switch to a new one. Use the on-screen display to select and change the input source. Present the best with vibrant colours Impress your audience with exclusive ViewSonic colour technology and enhance your presentations with a lifelike colour experience. An easy way to update the projector software Save yourself a trip to the service centre by keeping the software up to date easily and on-site via USB cable connection with your laptop. USB power adapter type A An integrated 5V/1.5A USB output can power wireless HDMI dongles, eliminating the need for separate power adapters when streaming your multimedia content.
